## **Mental Illness: The Family Story**

*Mental Illness: The Family Story* introduces the viewer to four family members who recount their own personal stories of how their family member's mental illness affected the whole family. Through their touching, often heart-wrenching stories, they openly share their feelings of guilt, anger, and despair when first faced with a mental illness diagnosis of a loved one. The families also share their feelings of hope and encouragement as they look towards an educated future in which they can advocate for loved ones.

## **“Hopes and Challenges”**

### **Children and Families Discuss Mental Illness**

*The Hopes and Challenges* video offers candid portrayals of three children each of whom have been diagnosed with a serious brain disorder. The children and their families discuss the uncertainties, fears and frustrations associated with the initial diagnosis of a mental illness, while sharing personal coping skills and positive outlooks towards the future. Treatment professionals also discuss the advancements made in medications and the availability of needed support services for families.
